

My Snow Man

Beginning

Hi my name is Jeff and I am going to tell you how to make my cool snow man. First you draw a smallish circle second you draw a little bit bigger one. Then you draw the biggest and last circle. Last you will need to make a green back ground for the snow man.

Details

First you drag over some black pimp glasses. Then you draw some green arms. After that you will go over to the details and find a peace out hand and drag it over to the arm and the hand is a darker green. Last you should put a black skinless skull. That is how you make my cool snow man.

THE END
